For your better financial future

bezAgenta.online

About us

We are the first portal in Slovakia that allows people to enter the 2. pension pillar online in a few minutes with all pension companies. It is the only technological solution available in Slovakia.

Your future self will
thank you.

What is the 2nd pillar?

Get money that would go to the state:

- Part of the money that the employer pays for you as state contributions can go to your personal pension account in the 2nd pillar.
- Your salary will not change and you will not pay anything extra!
- Everything is paid from the contributions paid by your employer

Your own savings:

- The money in the 2nd pillar belongs to you, not to the state.
- If something were to happen to you, your family could inherit them.

Everything runs automatically:

- Just sign the contract - the rest works automatically.
- If something changes - we will let you know.

How does the 2nd pillar **work?**

Your money grows over time:

- The money in your account is invested, so it can increase in value over the years.

Simple check:

- You can check your savings online at any time.
- Every year you will receive a statement by e-mail of how much you have already saved.

Flexibility:

- **If you stay in Slovakia:** The money will be part of your pension.
- **If you leave Slovakia:** You can request payment to another country.

How much you can get:

- If your gross salary is €1,500, you will receive €60 every month in the 2nd pillar. (4% of your gross salary) It's €720 per year - you don't pay anything extra.

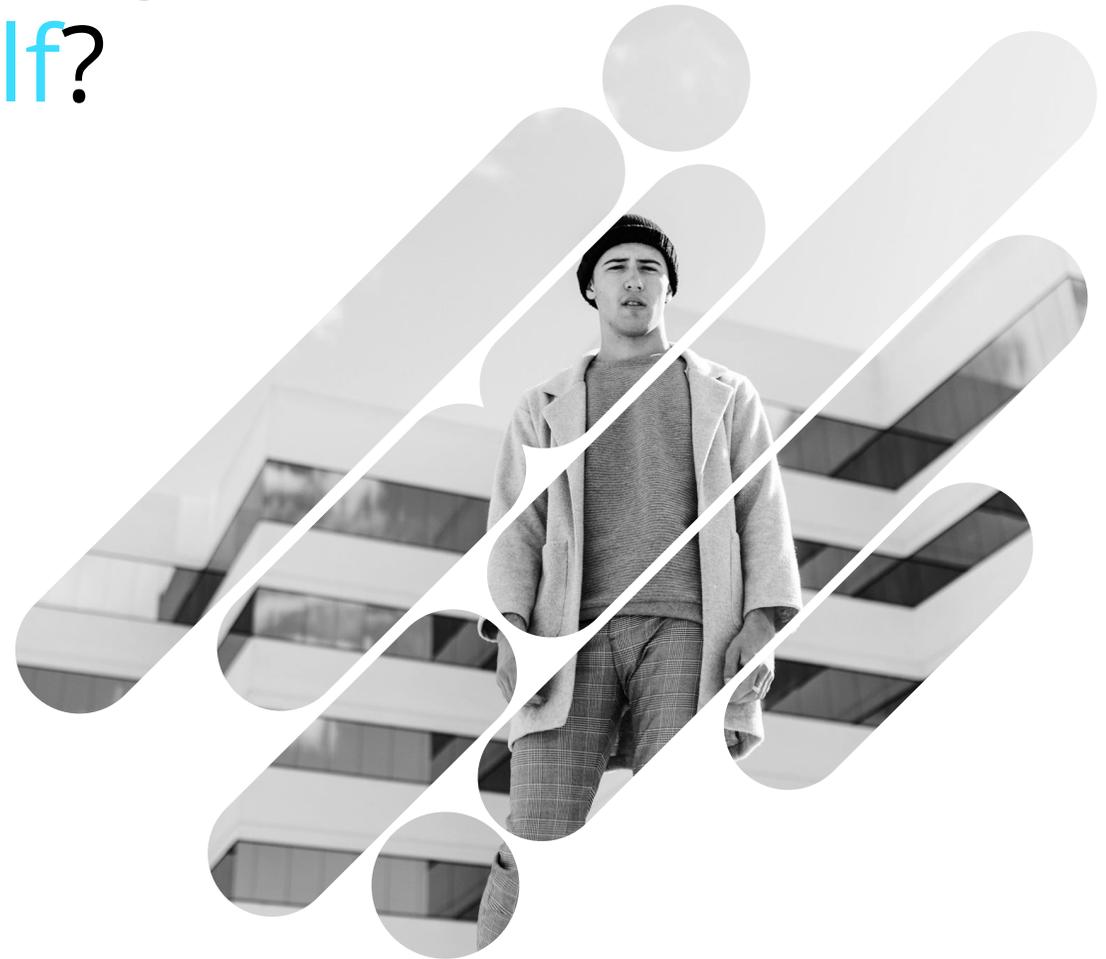

Will you let the **state** decide for you, or will you decide for **yourself**?

How the state can decide for you:

- If you do not take out the 2nd pension pillar yourself within 6 months of starting your first temporary job / job, Social Insurance will automatically assign it to you. (random for you)

What this means for you:

- You could end up with a fund that has the lowest return which might earn you less money
- A difference in yield of 1% per year can mean thousands of extra euros at the end of the savings.

Why join the 2nd pension pillar via bezAgenta.online?

Selection - from all companies, not just one.

Comparison - we rank all companies by revenue.

Online - you can arrange everything online in a few minutes.

Annual comparison - every year we send you a comparison of the entire market.

We're monitoring it for you - we'll let you know if anything changes.

Help - when you need it - via chat, phone, video call, mail.

Expertise - more than 20 years in the field.
